INDEX, VOLUME 22, 1984

Number 1

Appreciation to CORS INFOR Editors — R.L. PROBERT — 1

A Transformation Approach to Implementing Aggregate Operations — TONY MIDDLETON — 3

An Empirical Study of Decision Support Systems — S.L. HUFF, S. RIVARD, A. GRINDLAY, I.P. SUTTIE — 21

The Effect of Two Classes of Process Organizations on Multi-Stage Production/Inventory Systems — A.Z. SZENDROVITS AND M. GOLDEN — 40

Two Modifications of the Silver-Meal Lot Sizing Heuristic — EDWARD A. SILVER AND JOHN MILTENBURG — 56

Errata: A Fast Algorithm for the Greedy Interchange for Large-Scale Clustering and Median Location Problems (21:2, May 1983, 95–108) — R.A. WHITAKER — 70

Number 2

Editorial: INFOR Special Issue on Information Processing and Decision Making in Situations Involving Risks — ILAN VERTINSKY — 79

Elements of Risk Analysis in Non-Linear Utility Theory — PETER C. FISHBURN — 81

Utility Assessment: Domains, Stability, and Equivalence Procedures — D.A. WEHRUNG, K.R. MACCRIMMON, AND K.M. BROTHERS — 98

Conditional versus Joint Probability Assessments — HERBERT MOSKOWITZ AND JYRKI WALLENIUS — 116

355

Aiding Decision Making in Uncertain Environments: Problems and Prescriptions C. SMART, I. VERTINSKY, AND P. VERTINSKY 141

The Impact of Sunk Outcomes on Risky Choice Behaviour DAN LAUGHHUNN AND JOHN W. PAYNE 155

Systematic Vagaries in Human Decision Making JOHN COHEN 182

Time Perception and Long-Term Risks OLA SVENSON 196

Number 3

Recent Developments in Stochastic Activity Networks K. NEUMANN 219

A Practical Examination of Prefixed Procedures J.R. PARKER 249

On Determining Tree Query Membership of a Distributed Query CLEMENT T. YU AND Z. MERAL OZSOYOGLU 261

A Network Approach to Least-Cost Daily Transfers of Forest Fire Control Resources PETER KOURTZ 283

A Note on Application of Maximum Principle to H.M.M.S. Model for Production and Work-Force Planning KALYAN SINGHAL AND TIMOTHY J. HEINTZ 291

Number 4

Forum

Artificial Intelligence: A National Synopsis GORDON MCCALLA AND NICK CERCONE 299

Invited Paper

Software Engineering Principles DAVID LORGE PARNAS 303

Contributed Papers

Scheduling *N* Products on a Single Facility with Backordering and Fixed Terminal Inventory BAJIS DODIN 317

A Note on Lexicographic Linear Programming
MUSTAFA AKGÜL 343

Errata
Setting Individual Item Production Rates under Significant Lead Time Conditions E.A. SILVER AND D.J. SMITH 345
